TS3 Specs
Seals Technologies specialise exclusively in the design and manufacture of ultra-rugged handsets. The Seals TS3 is ruggedized and fully-featured Android Smartphone with IP68 design and state-of-the-art technology, which has been tested and certified to the MIL-STD 810G methods and procedures. Seals TS3 increases efficiency, safety and work crew productivity in the toughest working conditions. It features integrated GPS capabilities and one-key-positioning function: it allows for the end user to send out longitude and latitude coordinates and a pre-set message to five pre-set phone numbers. The features of the TS3 such as the acoustic noise-cancelling technology application, waterproof camera, Morse code signal, E-compass, Altimeter, Pedometer and torch to name but a few can help to keep vital work processes running smoothly and efficiently.

High-tech
Aproved to the most recent U.S. military standard MIL-STD 810G.
Dust-proof level: IP rating Grade 6. Impervious to any external dust.
Water-proof level: IP rating Grade 8. Operational in up to 2m of water for 30 minutes.
Shockproof body offers ultimate outdoor protection.
Can withstand being dropped onto concrete from 2 meters.
Can be used in temperatures ranging from -20°C to +60°C.
GPS
THOUSANDS OF APPS AVAILABLE
GPS NAVIGATION
RESISTANT TO EXTREME TEMPRATURE
UNDERWATER 5.0MP AF CAMERA
WATERPROOF HANDSET
PROTECTION FROM DUST
ALTIMETER
PEDOMETER
ACOUSTIC NOISE-CANCELLING TECHNOLOGY
RESISTANT TO SHOCK & VIBRATION

Key features
Tested to US military MIL STD 810G standards
Resistant to extreme temperature and extreme variations in temperature
Ultra shock proof
Suitable for humidity environments
Tested to withstand frequent high impact drops
Will withstand corrosive environments such as sea water
IP67/68 certified
One key positioning with SOS rescue feature
Extra-long battery life (12 hours+ talk time)
Waterproof cameras capable of being used underwater
Altimeter / Pedometers / Compass
Technical Specifications
Approved to the U.S. military standard MIL-STD 810G
Dust-proof level: IP rating Grade 6, impervious to any external dust
Water-proof level: IP rating Grade 8, operational in up to 2m of water for 1 hour
Shockproof body offers ultimate outdoor protection
Can be used in temperatures ranging from -20 to +60 C
Waterproof camera
Extra-loud speaker

Features
WCDMA/HSDPA/HSUPA Tri-band: 850/900/2100MHz (3G)
GSM/GPRS/EDGE Quad-band: 850/900/1800/1900MHz (2G)
GPS, AGPS
One-key-positioning setting with SOS rescue feature
Morse code signals (SOS)
5MP with auto focus camera LED torch light
Micro SD card slot (up to 32GB)
FM radio with speaker
WIFI (WLAN)
3.5 mm stereo audio jack Micro-USB
Bluetooth 4.0 with EDR
E-compass
Torch
Pedometer
Acoustic noise-cancelling technology
Measurements of atmospheric pressure & temperature
Indicator light Proximity sensor Motion sensor Light sensor
PC connection

About
Dimensions: 125 x 65 x 17.4mm
Weight: 207g (with battery)
Display: 3.5-inch HVGA 320x480 capacitive touchscreen
Storage: 512MB RAM / 512MB ROM
Core Platform
CPU: 800MHz
Operating System: Android 2.3.6
Battery
Rechargeable lithium-ion 1780 mAh
Standby Time: GSM 950 hours / WCDMA 810 hours
Talk Time: GSM 26 hours / WCDMA 20 hours

Accessories
Stereo earphone
Screwdriver (for case access)
Electrical wall charger
CD manual
Quick start guide
USB cable

You will be able to download a copy of the TS3 user manual from this page of our website
